ATI – Peer-reviewed research & open access journal, VOLUME 12, ISSUES 1-4, 2017

Thematic area:

ATI is peer-reviewed international research journal. ATI covers continuum of subjects related to applied sciences. Papers for consideration could source from domains of physics, chemistry, biology, technology and engineering, electronics, science and education, and other non-economic and natural sciences domains.

Editorial interest to research articles covers broad spectrum of areas and industries where various types and classes of technologies emerge and develop. It is expected that research articles should contribute original thoughts and reasoning on understanding of emerging and established technologies

These are some examples of technology fields where the researchers develop their analysis:

- Information and communication technologies
- Medical and healthcare technologies
- Engineering and design technologies
- Education technologies
- Applied technologies in various industries of economy and production

Structure and format of papers:

In general. Please use the guide to authors: http://academicpublishingplatforms.com/journal.php?journal=ATI#guides_to_authors

Submission format can be downloaded at <http://academicpublishingplatforms.com/journal.php?journal=ATI#downloads> The volume of paper should be at least 10 pages, but not exceeding 30 pages of A4 format. It is a general recommendation and good papers could be accepted in size less than 10. Articles must be written on English. Papers should be printed in MS Word, Time New Roman font (size 12), with 1.5 interval. Tables and pictures must be handled with MS Word drawing tools and supported by source references. Literature references should be placed in the end of paper and represented in required form.

Papers should be provided by the following requisites:

- Name of paper; List of keywords
- Summary in the beginning (a maximum of 150 words).
- References in required form
- At the end of paper author should precisely specify the following: first name and surname; scientific degree; country of citizenship; affiliated with a given author a research or other organization (company); e-mails (main and alternative); phones with codes (office and mobile); the convenient detailed post address, on which author wishes to receive the journal after printing.

Given publications should have research character and must be based on principles of scientific and a professional etiquette. The papers are subject for peer-review process by editorial and independent experts.

Publication fee:

Article **processing fee is 160 Euro (plus VAT, when applicable)**, due to pay only after accepting the paper. The main form of publication is electronic (online) and free open access. Producing reviewed, edited, and formatted article, maintaining it online around the clock and in electronic indexing archives and data bases assume adequate funding. The Applied Technologies and Innovations (ATI) is not subsidized/sponsored periodical and it is positioned as fee-based open access journal. In this model we require some minor investment from an author to cover publishing costs.

The paper will be published with online ISSN 1804-4999 (Online) with open access to a global reader. The primary version of the journal is online. The printed version of the magazine can be issued with a lag time (1-12 months) from the date of publication of the electronic version.

Paper submission deadline:

Electronic copies of paper must be sent to: publications@pradec.eu

Applications are accepted throughout the year. Online publication of the received articles will take possible quickest time (usually 2-4 weeks after receiving) depending on quality of article and editorial process.

You can also submit online at <http://academicpublishingplatforms.com/journal.php?journal=ATI&id=2#submission>
